CORPORATE PRESENTATION

Solergia srl is a company dedicated to the development of solutions for the production of energy from renewable sources and especially from photovoltaic systems. Founded in April 2008, it operates essentially in:

Power generation and sale to the grid by investing in the construction of proprietary photovoltaic plants designed and built to maximize yield and reduce environmental impacts. An additional 8 projects are currently in the permitting stage for 1 mega plants each

Turnkey supply of photovoltaic systems for individuals and companies: from the preliminary design to the application for permits to the relevant authorities, to the processing of the paperwork for access to the benefits provided, to the certification and commissioning of the system;

Turnkey supply of systems for improving the energy efficiency of corporate and private buildings through the installation of heat pumps that exploit the energy produced by photovoltaic panels, allowing on the one hand a greater use of energy from renewable sources with consequent savings of fossil fuels and on the other hand lower costs for heating and production of acs

Assistance to individuals and companies on specific maintenance contracts, also in the O&M formula, and on all bureaucratic issues related to authorization practices those with GSE, ENEL , Customs Agency and CCIAA.

Development of initiatives addressed to the energy transition such as support, to municipalities, entities, companies and individuals, on the processes inherent in the establishment of energy communities and / or groups of collective self-consumption allowing access to the related benefits generated by the sharing of energy produced from renewable sources Consultancy and practices inherent in the participation in the recent calls provided in the PNNR plan supporting companies in all operations and subsequently in the implementation of the plants thus allowing to obtain the grants provided

Solergia srl operates in compliance with all technical regulations of reference CEI , regulations related to safety in the workplace and in compliance with collective bargaining agreements .

Solergia srl has a share capital of 2,000,000.00 euros and holds the following certifications: ISO 9001 - SOA OG09 class II (in progress practice for class III) - SOA OG10 class I- RES certification

Our strengths are:

- Organizational autonomy with an in-house technical office where qualified professionals work in the design of photovoltaic systems and the related bureaucratic authorization process, Enel and GSE .
- Qualified internal workforce consisting of teams with 10 qualified technicians with proven experience.
- Presence of a fleet of vehicles equipped for the maintenance and implementation of photovoltaic systems such as baskets, forklifts, trucks , vehicles equipped for maintenance work and certified instrumentation for plant verification and control.
- Maintenance activities and h 24 monitoring of plants with performance control down to the string level ensuring precise intervention times. The maintenance activity in the photovoltaic sector counts to date several contracts developed both in the O&M formula, in which the company is engaged both in the management of large solar parks, and in the customized offer of contracts on specific customer needs for medium and small systems throughout the installed park .
- Photovoltaics as the company's core business with over 15 years of experience
- Lean and dynamic structure able to give an immediate response to customer needs through customized solutions, even complex ones, through an extensive sales network and several collaborations with professional firms.

ALCUNI IMPIANTI REALIZZATI NELLE DIVERSE TIPOLOGIE DI
INSTALLAZIONE :

IMPIANTI A TERRA

Rotella 1 (AP) - Impianto a terra 0,998 MW

Monsampolo (AP) - Impianto a terra 0,998 MW

SOLERGIA srl.L. - Tel/Fax +39 0736 336000 - mail: info@solergiasrl.it
Sede legale e uffici: Zona industriale Marino del Tronto 63100 Ascoli Piceno
Partita iva e C.F. n.01956670440 - REA AP-187171 www.solergiasrl.it

Offida (AP) - Impianto a terra 0,998 MW

Castignano (AP) - Impianto a terra 0,500 MW

SOLERGIA srl.L. - Tel/Fax +39 0736 336000 - mail: info@solergiasrl.it
Sede legale e uffici: Zona industriale Marino del Tronto 63100 Ascoli Piceno
Partita iva e C.F. n.01956670440 - REA AP-187171 www.solergiasrl.it

Massignano (AP) - Impianto a terra 0,780 MW

Rotella 2 (AP) - Impianto a terra da 0,998 MW

SOLERGIA srl.L. - Tel/Fax +39 0736 336000 - mail: info@solergiasrl.it
Sede legale e uffici: Zona industriale Marino del Tronto 63100 Ascoli Piceno
Partita iva e C.F. n.01956670440 - REA AP-187171 www.solergiasrl.it

Appignano 1 (AP) - Impianto a terra da 0,700 MW

Appignano 2 (AP) – Impianto a terra da 0,440 MW

SOLERGIA srl.L. - Tel/Fax +39 0736 336000 - mail: info@solergiasrl.it
